*Reports · Dashboards · Power BI*

REPORTS

Build your own reports.

The Reports module lets you build reports directly inside Conductor using SQL or by chatting with Harmony AI.

When you chat with Harmony AI, you can describe your query and Harmony will write the SQL for you. You can then save, share, and use those reports to build your own dashboards.

SQL EDITOR
+ Written by Harmony

```

1 SELECT p.name AS project, p.stage, p.rag_status AS rag,
2       p.budget, p.actual_spend AS actual,
3       (p.budget - p.actual_spend) AS variance
4 FROM   projects p
5 WHERE  p.workspace_id = {{workspace}}
6       AND p.updated_at BETWEEN {{from_date}} AND {{to_date}}
7

```

OUTPUT PREVIEW
7 rows returned

PROJECT	STAGE	RAG	BUDGET	ACTUAL	VARIANCE
ERP Migration	IL3	●	4,200	3,800	+400
CRM Rollout	IL2	●	2,800	2,950	-150
Cloud Infrastructure	IL3	●	5,100	4,600	+500
Mobile App Platform	IL1	●	1,800	1,200	+600
Data Warehouse	IL2	●	3,400	4,100	-700
Security Hardening	IL4	●	900	850	+50

+

Harmony

Report assistant

Show budget vs. actual for every project, with stage and RAG status.

+

Here's a query for all 7 projects, scoped to your workspace and dates. Variance is budget minus actual.

SELECT p.name AS project, p.stage, p.rag_status AS rag,
p.budget, p.actual_spend AS actual,
(p.budget - p.actual_spend) AS variance
FROM projects p

✓ Added to editor · 7 rows

Explain query

Only over-budget

DASHBOARDS

Build your own dashboards.

The Dashboards module gives you the power to build your own views and dashboard layouts to run your meetings or share insights.

POWER BI

Conductor by Sensei Labs • <https://getconductor.com>

Page 2 of 4

Bring your Power BI dashboards into Conductor.

Power BI dashboards can now live inside Conductor with row-level security respected. You can keep the Power BI dashboards you've already invested in while staying in Conductor.

We also shipped

- **Configurable Columns:** choose which columns appear on any list view.
- **Filtering:** filter portfolios, projects, tasks, and records down to exactly what you need.
- **Bulk Import:** bring your data into Conductor using a bulk upload from an .xlsx or .csv file.
- **Project & Task Inline Editing:** edit projects and tasks inline without opening each record.
- **File Storage:** upload and save files in Conductor.
