Interpath Announces Alliance with Enterprise Orchestration Platform Conductor by Sensei Labs

Interpath announces a strategic alliance with Sensei Labs to support its transformation work with clients

Sensei Labs January 30, 2025

London, United Kingdom - January 30, 2025: Interpath, the international advisory firm, has announced an alliance with Sensei Labs and its enterprise orchestration platform Conductor. The alliance will support Interpath's work with clients to transform business operations and manage complex workflows.

Sensei Labs is a global leader in enterprise orchestration, working with major corporates, government agencies, and professional service firms worldwide to automate, manage and co-ordinate large scale initiatives.

Its AI-powered Conductor platform provides KPI and benefits tracking, real-time data management, collaborative workflow, accountability, and governance. For Interpath, the technology will be

integrated across its services lines to drive value for clients, supporting services such as M&A integration, private equity portfolio management, ESG strategy, and supply chain optimisation.

Hope Rosenbaum, Chief Growth Officer, Head of Alliances at Interpath, said: "Major corporate transformation projects are complex and can lean heavily on the resources of an organisation. The alliance with Conductor brings market-leading AI technology to further support our clients to harmonise a wide range of workflows to ensure efficiency, productivity, and performance. We're excited to get started with the team at Sensei and harness the power that Conductor has in turning even the most multi-faceted of processes into a well-rehearsed symphony."

Jay Goldman, Co-Founder and CEO of Sensei Labs, said: "Our Conductor technology perfectly complements the work that Interpath does every day in helping organisations to transform and create value. From strategy through to execution, we'll be able to bring our AI-driven platform to more leadership teams and enable them to realise their ambitions. We're thrilled to announce this alliance with Interpath and support across its fast-growing international network."
